Hey pretty lady, I've been knowing you for a long time
Can we talk? There's something working on my mind
I've been thinking, 'bout you and me baby gettin' it on
We should do it, promise I'll hold you all night long

Touch that body, touch that body baby
Touch that body, touch that body baby
Touch that body, touch that body baby
Touch that body, touch that body baby

Can I take you home? Promise there'll be no telephone
Just you and me, take care of you from A to Z
You know I got you back, treat you like a queen
Wouldn't know how to act
You know I'm all you need, girl I'm here to please

Touch that body, touch that body baby
Touch that body, touch that body baby
Touch that body, touch that body baby
Touch that body, touch that body baby

Can you see it through, making me a part of you?
Can you see it through, making me a part of you?

Touch that body baby
Won't you work it lady?
Touch that body baby
Won't you work it lady?

Touch that body, touch that body baby
Touch that body, touch that body baby
Touch that body, touch that body baby
Touch that body, touch that body baby

Can you see it through, making me a part of you?
Can you see it through, making me a part of you?

Can you see it through, making me a part of you?
Can you see it through, making me a part of you?

Can you see it through, making me a part of you?
Can you see it through, making me a part of you?

Touch that body baby
Won't you work it lady?
Touch that body baby
Won't you work it lady?
