Tell me "tell me" what
you see when you look at me
I am just a girl with a taste
for technology you say that I'm
too rational but I'm just seein
things from another point of view

Numbers strike my fantasy I've got
a taste for geometry don't get me wrong
I just like to be in control people just
don't understand the way I'm feelin so different
but I don't care I am proud of who I am

Chorus:

Love is a chain reaction it
starts from an emotion tion tion tion
I see the stars in the sky I feel variable
lution tion tion tion

Tell me what you see when
you look at me I am just a
girl whos in love with technology
music make me wanna dance but the
waveform on the screen put me in a
trance give me wires and machines electronic
energy ultrasounds and i'll turn them into love
the universe is a mystery super novas give me a
thrill but nothins like your heart beat next to
mine

Chorus:

Love is a chain reaction it
starts from an emotion tion tion tion
I see the stars in the sky I feel variable
lution tion tion tion

Love is a chain reaction it
starts from an emotion tion tion tion
I see the stars in the sky I feel variable
