I was small when i first heard my inner voice
then i followed my destiny, it led me here and
not I'm making the best of my awesome skills
and I'm able to fight dark forces
what do you see when you look at me?

I am only a girl
trying to save the whole universe
it's my mission
it's a magical life
but sometimes i wish i could live for one day
just like anyone else

I can't tell what tomorrow will bring to me
but I know I'll be here to fight for a better future
you can bring all the magic back in your life
all you need to do
is close your eyes
and remember the first time you felt alive

i am only a girl
trying to save the whole universe
it's my mission
it's a magical life
but sometimes i wish i could live for one day
just like anyone else

here in my fairy world
i see things I've never seen before
(hmmmm)
the adventure never ends

i am only a girl
trying to save the whole universe
it's my mission
it's a magical life
but sometimes i wish i could live for one day
just like anyone else
