Don't know what came over me
Got lost in a fantasy-with you and me
My broken heart is gonna heel
I can't belive the way I feel-is this for real
I'm caught up in your stare
Under your spare
And there's just no way to tell
How I'm gonna break free
Searchin'
Gotta find an answer
Lookin'
All the places we've been
Dreamin'
That we last forever
I won't stop searchin' for you
Till were to toeghter again
