To be a girl today
Ain't easy till you are
Hurry up
One day
you're in a rush
Makin' my way in this concrete jungle

Sweet mum
Been goin' to work
Super professional
Meet friends
Make new plans
Full of the flow, relax, and slow down

She's your next door neighbor
You don't know she's on a mission
She can be anything
Save the world and be wonderful
(Save the world and be wonderful)

Higher and higher baby
So the girl's followin' the big dreams
So down to earth and so fab
Take a chance be what you wanna be
She is a million girls in one
Look up in the sky here she comes

To be or not to be
No time for questionin'
Get up
A little make-up
As where is mum this city jungle

I need a magic stick
To put some order around
(To put some order around)
I guess
I'll do without
Remember I'm a self-made woman

She's your next door neighbor

You don't know she's on a mission
She can be anything
Save the world and be wonderful
(Save the world and be wonderful)

Higher and higher baby
So the girl's followin' the big dreams
So down to earth and so fab
Take a chance be what you wanna be
She is a million girls in one
(She's a million girls in one)
Look up in the sky here she comes

Higher and higher baby
So the girl's followin' the big dreams
So down to earth and so fab
Take a chance be what you wanna be

Higher and higher baby
So the girl's followin' the big dreams

(She can be anything)
(She is a million girls in one)
(Look up into the sky)
(Supergirls always wanna fly)

(She can be anything)
Higher and higher baby
(She is a million girls in one)
(Look up into the sky)
Higher and higher baby
(Supergirls always wanna fly)

(She can be anything)
(She is a million girls in one)
(Look up into the sky)
(Supergirls always wanna fly)

(She can be anything)
Higher and higher baby
(She is a million girls in one)
(Look up into the sky)
Higher and higher baby
(Supergirls always wanna fly)
