You and me, The tropical breeze
A drink under a palm tree
Let's forget about the rest
Today I'm having fun with my friends

Let's dive into the ocean
So good to float and watch the sky
Now I can feel no gravity
It really feels like flying

When joy is all around
What more can you ask for?
Paradise is nothing but a smile
I see it in your eyes

Some people search the whole world
For a place like this
To me its not that far

The music plays in the jungle
Haloa echoes the moon
Te quiero Mambochiwambo
I love you

And if you like to be happy
Sing it out loud, Move your feet
Mambochiwambo
Let's be wild and free

When you are sad and lonely
Don't cry just send a s.o.s
I'll come and take you far away
On my flying carpet

Full speed above the ocean
Now jump! A splash into the sky
We'll catch a beam of light and then
We'll surf over the rainbow

All of sudden I wake up
and realize

That I haven't move from here
and I am still in paradise

I don't need anything
and all the my best friends
Tonight we're going to a party

The music plays in the jungle
Haloa echoes the moon
Te quiero Mambochiwambo
I love you

And if you like to be happy
Sing it out loud, Move your feet
Mambochiwambo
Let's be wild and free

All of sudden I wake up
and realize
That I haven't move from here
and I am still in paradise

I don't need anything
and all the my best friends
Tonight we're going to a party

The music plays in the jungle
Haloa echoes the moon
Te quiero Mambochiwambo
I love you

And if you like to be happy
Sing it out loud, Move your feet
Mambochiwambo
Let's be wild and free

And if you like to be happy
Sing it out loud, Move your feet
Mambochiwambo
Let's be wild and free.
