Strangeness detectors
Collage charmers
Magnetic behavior
Quarks and order

When it's cold I feel cold
When it's hot I feel ambitious
Fit for a princess
Hot on the heels of an angel

Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? I feel ambitious

The ideal copy is the same
The ideal copy has your name
When you can't, it makes you can
When you aren't, it makes you am

When it's cold I feel cold
When it's hot I feel ambitious
Fit for a princess
Hot on the heels of an angel

Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? I feel ambitious

When it's cold I feel cold
When it's hot I feel ambitious
Fit for a princess
Hot on the heels of an angel

Are you hot? Are you hot?

Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? I feel ambitious

The ideal copy is what you want
When you won't, it makes you will
The ideal copy makes you happy
The ideal copy

When it's cold I feel cold
When it's hot I feel ambitious
Fit for a princess
Hot on the heels of an angel

Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? Are you hot?
Are you hot? I feel ambitious
