Count your stars in the sky
Cross my heart hope to die
In the beginning of what we know
What was true?

And the girl was dancing, floating through the
Air, romancing, floating away
Floating away

Yeah yeah yeah, curled into my skin and sunk in
You have me completely broken
Waking up so welcome to the end
The end, end of all things

Why can't we just keep our mouths shut, why can't we
just keep our mouths shut
Why can't we just keep our mouths shut, why can't we
just keep our mouths shut

Breathe me in to your mouth
Mark my words and spit them out
In the end we all knew
We all knew

And the man was singing, floating through the
Air, voice ringing, floating away
Floating away

Yeah yeah yeah, curled into my skin and sunk in
You have me completely broken
Waking up so welcome to the end
The end, end of all things

Why can't we just keep our mouths shut, why can't we
just keep our mouths shut
Why can't we just keep our mouths shut, why can't we
just keep our mouths shut

Breathe me in to your mouth
Cross my heart

Yeah, crawl into my skin and sunk in

You've left me completely broken
Waking up so welcome to the end
The end, end of all things

Waking up so welcome to the end of all things
Waking up so welcome to the end of all things
Waking up so welcome to the end of all things
Waking up so welcome to the end of all things
