

Wired All Wrong "Make A Fool"

Visit "[Make A Fool](#)" on MotoLyrics.com

How can you want me when you don't even know me
No, you don't even know me, uh huh
So condescending when you tried to console me
But the damage here is already done

And every second feel the weight of the world
Pressing down on my little home
How can you want me when you tried to control me
So I'll burn all the wires from my bones

But that's life and you can for sure bank on it
It's a parade and you can for sure rain on it
Your clear miles of indecision
Oh yes oh no okay alright uh huh

If you show me affection or total rejection
You just make me a fool out of me now
If I'm joining you bedside, show me your best side
So you can make a fool out of me now

How can you reason all these things you believe in
When you just don't believe them at all
You talk s... you believe you're the s...
You just make it up as you go along

In your empty world little petty girl
Where'd you get your right from your wrong?
How can you reason all the things you believe in
You deserve to be preserved in song

And that's life and you can for sure bank on it
It's a parade and you can for sure rain on it
With sheer miles of self-destruction
Oh yes oh no okay alright uh huh

If you show me affection or total rejection
You just make me a fool out of me now
If I'm joining you bedside, show me your best side
So you can make a fool out of me now

If you show me affection or complete rejection
You just make me a fool out of me now

If you're joining your bedside, show me your best side
So you can make a fool out of me now

Now it's way too late for you to cause me harm
Cause I've been stuck in this line before and I'm not
alone
Silly little girl with a silly little bomb
Suffer self-destruction tonight

(There's no way out of this)
Little girl, pity the fool that you love
Little petty girl, I pity the fool that you love

(In God we trust but for who do we stand)
(Here where there's no difference between woman or
man)
Little girl, pity the fool that you love
(In God we trust but for who do we stand)
Little petty girl, Let go the fool that you love now

Show me affection, show me affection
Or total rejection, or total rejection
You'll just make a fool out of me now
If I'm joining you bedside, joining you bedside
Show me your best side, show me your best side
So you can make a fool out of me now

If you show me affection or total rejection
You just make me a fool out of me now
If I'm joining you bedside, show me your best side
So you can make a fool out of me now
