Subtly discrediting my voice- Discarding my choice to  
determine my  
fate and destiny over my life and my body- By chipping  
away my  
reproductive freedom from every direction- With  
parental permission,  
legislative regression and the "father's" discretion-  
100 miles from  
the nearest clinic- And the clock is still ticking- 24 hour  
waiting  
period is gonna do me in- All I want is to have an  
abortion- You're a  
fucking hypocrite with you anti-choice propaganda-  
Protecting life but  
the life of who?- The religious right and Operation  
Rescue?- You advocate  
pro-life a supporter of death row- Get your laws of my  
body and your laws  
off of our roe- You can't stop me- All you can do is take  
away my safety-  
Elderly Christian women and stupid right wing men-  
Groups who will never  
need to get an abortion.
