In the name of honor- She was beaten and bruised,  
disfigured and  
mutilated even worse than death- In the name of  
honor- She lost  
her nose and lost her eyes- never to see the face of her  
children  
again- She was abused and she was accused of  
cheating on her husband  
in the country of Pakistan- She was accused and she  
was abused in the  
name of honors- violence, killing, beatings are  
justified- It's not fair-  
In the name of honor- He pulled he downstairs by her  
hair because she  
didn't do the dishes right- In the name of honor- We  
bombed their land,  
their hospitals- Killed many innocent people dead- Use  
American flags as  
band-aids to cover something up that you cannot  
fucking hide- It's time  
that we open up our eyes, admit our own mistakes and  
realize we can no  
longer retaliate- If we're not a part of the solution we're  
a part of  
the problem.
