Tell me all your secrets
The ones you hold inside
Tell me all those deepest thoughts that occupy your
mind
Tell me all your lines, the ones you know I'll believe

And kiss me like your lover before you fall asleep
Kiss me like your lover before you fall asleep

Your heartbreak is a loaded gun and you got me on my
knees
Your heartbreak is a loaded gun pull the trigger please
I can't get off the ground when you're standing over
me
Your heartbreak is a loaded gun pull the trigger please

You love to watch me crave
When I'm laying undernength
You love to watch me at the times when I can barely
breathe
You love to watch my head spin and my trembling feet

So kill me like your lover before you fall asleep
Kill me like your lover before you fall asleep

Your heartbreak is a loaded gun and you got me on my
knees
Your heartbreak is a loaded gun pull the trigger please
I can't get off the ground when you're standing over
me
Your heartbreak is a loaded gun pull the trigger please
