Hooves approaching, thunderous sound  
A million feet march shake the ground  
Endless lines - the banner fly  
A conqueror's might - you shan't defy

With scales o steel - the dragon's tail  
Leagues of men who will prevail  
A trail of death, distraught and war  
On a scale of hell not seen before

Scouts fly out with eagle's eyes  
Lead the way to foe's demise  
Scorch and burn his traits of choice  
Bend the knee and embrace the foist

[Chorus:]  
Conqueror... conqueror's return  
Conqueror... it's the conqueror's return

Enforce his yoke with sword in hand  
Iron will through supreme command  
Born to vanquish - to ravage the earth  
Raised to rule from the day of his birth

[Chorus]

Face the conqueror  
Greet the conqueror  
Heed the conqueror  
Obey the conqueror  
Please the conqueror  
Serve the conqueror  
Praise the conqueror  
Fear the conqueror

[Chorus]
