"come on man," she said.  
"we have to leave this town  
I can't stand another day without the rain"

I said "we'll leave now,  
You can pack our things  
Let me get the bill and i can make it straight."  
It was the same as yesterday.

We've been gone  
And the miles stretched down the long road  
We moved as fast as we could

Through the heat of the desert  
And the cruelty of that Buick's seat  
Just to keep on

That night we laid on the floor of the desert  
But i could barely sleep, yea i had this dream  
There was a man in a black car, with a man in th back  
seat  
And i woke up in a cold sweat with her lyin next to me

We've been gone  
And the miles stretched down the long road  
We moved as fast as we could

Through the heat of the desert  
And the cruelty of that Buick's seat  
Just to keep on

We sat on the corner of memphis and 53rd  
As they filled the tank, we had a drink  
She whispered, "let's get moving"

That night we night laid on the floor of the desert  
But i still couldn't sleep.  
There was man in a black in black car with a man in the  
back seat  
I'd wake up in a cold sweat with her lying next to me.
