It's Saturday night, we're top of the bill,  
It's only the pub down the road, but we're still dressed  
to kill - and we will,  
It's thirty five quid, let's put on a big show,  
There's some record guys to see us, but I bet they  
don't show,

Come in take a seat boys, while we take control of you  
We're goin' to have lots of fun you know, and plenty of  
women too,  
You'll all be millionaires next week, everything's for  
real,  
It's the chance of a lifetime - big deal - it's your big  
deal,

We packed up our jobs, overnight we were pro,  
Straight on support tour, after a phone call from Joe,  
The roadcrew went first, to give them plenty of time,  
The PA was already set up, but where's our bloody  
backline,

[Repeat chorus]

All in it together, we're all one big show,  
But when the soundman wants another fiver, he's just  
gotta go,  
We're at the Marquee, our legs turn to jelly,  
Oh Christ! Where's our bass player? At home watching  
telly,

[Repeat chorus]

What big deal
