Everybody's out tonight  
They look so happy,  
All having a good time  
Wish it could be me,

Even now I remember  
What I want to forget,  
Keep telling myself now  
It was all for the best,

Am I doing the right thing,  
Can't make a mistake,  
Am I doing the right thing,  
Don't say that it's too late, too late,

I just sit here waiting,  
Feeling like I used to do,  
It's cold outside and it's raining,  
But I want to come and see you,

How could I let you go  
Say goodbye so easily,  
The best love I've ever known  
I need you beside me,

Am I doing the right thing,  
Can't make a mistake,  
Am I doing the right thing,  
Don't say that it's too late, too late
