(Verse 1)

I can't stop thinking bout' you... girl(s),
The thought of you not in my world...
My heart twirled... My mind swirled... all over you
girl(s)...

I can't let you go... oh please see,
I need you here with me... The deciding cree, to be
free...
The agony, you see

(Chorus)

I plead for all your time... to be with mine, confined...
We all fall during the climb... some of the time...

(Verse 2)

Remember fond memories...
Remember feeling of the breeze, by the seas, on your
knees,
Oh won't you please, try, to see

The way out in which you may seek...
When distant future seems so bleak...
Lean on me, family, beat reality, then you, will see

(Chorus)

I plead for all your time... to be with mine, confined,
We all fall during the climb... some of the time...

(Verse 3)

Then comes the word suicide,
Which internally we try to hide,
From the sky, from our eyes, no alibi, but just, to try...

I pray of the better for you...
To find the subliminal clue... someone loves you...
This is true... but this is, nothing new...

(Chorus)

I plead for all your time... to be with mine, confined,
We all fall during the climb... some of the time...
