Well, either keep me entertained or keep out of my way
I'm sitting here imagining you in a million different
situations
And I have the worst intentions

I'm sorry to be so brash
But I'm a little too honest and you hate that
So I'll bite my tongue, watch my mouth
You never had a clue what this was all about

It's so clear on the long drive home
I can't stand another night alone
This just might be a let down
But these chances never last so
I'm screaming out through the car window
To the sounds of the stereo
This just might be my breakdown
But I'm not ready to let this go

Put down the pebbles in my hand
Climbed a ladder
Put a brick right through your window
"You're gonna hear me out", yeah
Hear me out on this

Now that I've got your full attention
I'll never let it escape my grip
These glossy, bloodshot eyes of mine
Say this is about as desperate as I get

It's so clear on the long drive home
I can't stand another night alone
This just might be a let down
But these chances never last so
I'm screaming out through the car window
To the sounds of the stereo
This just might be my breakdown
But I'm not ready to let this go

Lights out. the party's over, make your move
Or you'll regret you came here at all
Now I was sure that I had sent off my

Last long shot love letter
Two years ago
But I'm a sucker and it shows
So lights out, this party's over, make your move
Or you'll regret this, regret this

It's so clear on the long drive home
I can't stand another night alone
This just might be a let down
But these chances never last so
I'm screaming out through the car window
To the sounds of the stereo
This just might be my breakdown
But I'm not ready to let this go [x2]
