So let's score one more for Ms. Overrated,
Overdressed
Regardless of the scene and it burns her up we're not
impressed
By this self appointed queen

Fake eye lashes and jet black hair
Now she's searching out this room
For anyone who will even pretend to care

Gentlemen, best run for cover
This girl's got heat seeking looks
That will cut right through your defenses

A chest wound to leave you breathless
Try to remember
This is all a method for her
Not a word that left those lips was ever genuine

Now I'm gonna get right to the point and you'll hate this
Exactly how much evidence did you really think that I
would miss
So now I'm posted up with the boys
Who remind me that you can't blame every awful thing
you do on being wasted

Maybe you've finally changed your ways
But I doubt it and
Baby, how much evidence did you really think that I'd
miss
Maybe you've finally changed your ways
But I doubt it and
Baby, I'm posted up with the boys
And we're letting all your secrets out
