Got a ton of white boy guilt, thats my problem,

Obstacle of joy, one reason to use some drugs.

Slept on a mexican beach slept in trash - American  
trash -

thinking to much can ruin a good time.

I asked a mexican who ran a bar for americans "Who  
won" I said "The election?",

He laughed, I felt like a gringo,

They played a song and had some fun with us.

Why can't you buy a good time?

Why are there soldiers in the street?

Why did I spend the fourth in someone elses country?
