### "Spillage"

A clear and dusty day in June  
My stoned mind just spilled that line  
Describing, what's it like, describing?  
Believing that the sum is "yes"  
Looking around at all my comrades  
My police state mind just spilled that line  
I want to give names to our bonds  
I need names to play the game  
But what makes my heart run?  
Why the thunder in my thighs?  
My body  
My mind  
The idea of my life  
Seems like a symbol
