

## Withering Surface "Superior Seed"

Illustrated thoughts undescrivable foams  
Shadows of blue scrapes  
Selfish, unprevailed, to everflowing extinct  
Cells, cocooned, protected

Tissues, illustrated, visionable by  
Black everflowing sense,  
Unknown species take human form  
Desired - into uncanny demise

Selfish, unprevailed  
Tomorrow already looks  
Better than yesterday  
Worse than ever

And though everything remains  
Features, creatures now  
Tomorrow already looks  
As a dying illustration

Drawn, written and calculated  
Basic values have  
No age, eventhough it shapes  
Six above the calculated  
Tombs, of my Armageddon  
As the moonlight shines
