You live a faithful deception of satire  
A break in selfless obsession  
Your trail of lies to speak a prophets intention  
With everyone you've ever used

Last life crawl what do you pray for  
Spoken death, liar  
Darkness at the call of retribution  
It's just the way we direct it inside

We don't have time for regret  
Live life in a dissonant nightmare  
Disparage your soul, you can't find  
What you never seek on the brink of fascination

Sometimes I want to throw it all away spit  
A picture of the confused center of your life  
A picture of the confused nature of your world

So much evidence of your sorrow  
So much evidence that you're alive  
As soon as we get up and walk away  
We turn around to see the bridges burned

And the life we just let slip away  
And in the fires of those regrets  
We see the light of missed opportunity  
Disgracing our intentions and directing us home

Virulent

We all feel the pressure of conviction  
Live the life of someone you're not  
You can't fake the feeling of acceptance  
Bring it all to the last one inside

You are the phantom of your inception  
Use your volition in your favor  
You are the anthem of your reactions  
Use your volition in your favor

Try streamlined mind attack

Faceless in your action  
Faceless heart attack  
Focused in your action fail-safe grave
