

Within The Eddy "I'll Never Forget"

Visit "[I'll Never Forget](#)" on MotoLyrics.com

It was the first time I saw you
That I knew I'd learn to love you
When you saw me, you hoped too
Day after day, we would see the sun rise
I would watch the twinkles in your eyes
Never knew a change would come into our lives

CHORUS:

All our sins will wash away
My head will find a new place to lay
I'll move on I suggest the same
The time has come for a different day
As for you and I our lives will change
But I'll never forget your beautiful face

Others thought it was too good to be true
But I just kept my sights on you
Little did we know, I would have to go too soon
Time and space would be erased
As we would lay down face to face
My heart's still there, but I'm in another place

CHORUS

We may change our minds and where we may live
But nothing will change the memory of your kiss
(I'll never forget the times we shared)

CHORUS

CHORUS:

All our sins have washed away
My head has found a new place to lay
I've moved on I suggest the same
The time has come for a different day
As for you and I our lives have changed
But I never forgot your beautiful face
