Hey Mr. Sulafane
I don't even know why I stay with you
You suffocate
Asphyxiate
I get near you I can't think straight

CHORUS:

Back down, before I break down
Step down, I dare you to try now
You think you can control me
Back down, before I bring you down
Step down, you'll get what's coming now
You have no place to disagree

Hey Mr. Sulafane
Just watch yourself you'll be sorry
You exterminate
Extirpate
I get near you I can't escape

CHORUS

Why won't you let me go

CHORUS
