

Within The Eddy **"No Trace"**

All the bones I've broken
All the words I've spoken
In my life
All the doors I've opened
All the days I've woken
All the paths I've chosen
In my life I must've done something right

CHORUS:
But I can't find it
No trace
Of something I did
That's worthy of my being here
No trace
No trace

Every mistake I've made
Every wound I save
Every vice I crave
Every smile and wave
I thought it would amount to something

CHORUS

In my life I must've done something right
I thought I would amount to something

CHORUS
