A thousand words
You say to me
But I don't know what they are
'Cus you're not saying them aloud
I'm all alone though we're not apart
I'm standing here in the dark

CHORUS:
Very well
I'll say to you goodbye
And farewell
I'm not doing very well

You want me to read your mind
This silence makes me blind
Is there someone else
Am I even in your thoughts
In hiding you remain
I can't take anymore games

CHORUS

I've still got so much to give
Why won't you just let us live
Saving it for another day
But you never let me in
So I say

CHORUS
