

Without Tomorrow

"Believe"

Visit "[Believe](#)" on MotoLyrics.com

I believe in everything you have
To say your voice is my salvation
I can't breathe when your near I
Believe in everything you have to
Say the fire inside persuades me
To reach for you but your not
There

Gets so hard just to fly
Broken wings are all I have I give
In close my eyes lost my way but
Your my sight

I believe in
Everything you have to say your
Presence overwhelms me I can't
Breathe when your near I believe
In everything you have to say the
Light inside persuades me to reach
For you but your not there

Gets so hard just to fly
Broken wings are all I have I give
In close my eyes lost my way but
Your my sight

Gets so hard just to fly
Broken wings are all I have I give
In close my eyes lost my way but
Your my sight

Your my side
Your my side
