In your mind's eye lives a memory
Hard to find, blinded by sorrow
And her cold voice sings a melody
Hear her sing, hell frozen rain falls down

She can't hear your voice.
She can't hear you call
You have burned your choice
If you're here, can you prove you're really here?

There is a moment in time
When all the cards that you've played divide
You feel the temperature dive
And all your demons inside come crashing through

In your mind's eye lives a memory
Hard to find, blinded by sorrow
And a strange voice sings a melody
Hear it sing, hell frozen rain falls down

Everything is wrong
This is not my home, is it?
Do I know your face?
Does my mind wish to forget?

A toast to lonely souls
Who never could take control of life
And all the missing we love
I hope the darkness they find will give them light

In your mind's eye lives a memory
Hard to find, blinded by pain
And a cold voice sings a melody
Hear it sing, hell frozen rain

Our safe hearts feeling dangerous
Missing truth frozen in lies
Is your family just a memory?
Once again, hell frozen rain falls down

Of all these pieces of broken dreams
This one that scares and confuses me

If all these things that you say are true
You should be someone I always knew

In your mind's eye lives a memory
Hard to find, blinded by pain
And your father sings a melody
Hear him sing, hell frozen rain

Our safe hearts feeling dangerous
Missing truth frozen in lies
Are your loved ones just a memory?
Burning pain, hell frozen rain falls down
Down...

Life is cold here. Empty hallowed ground
In my head blood-colored rain falls down
