I will hear your screams tonight  
In this dungeon without light  
Torturing your body without mercy  
Breaking your bones, burning your flesh

I don't wanna hear your lies  
I saw the evil sign on your skin  
Tell me the truth you are a witch  
A servant to Satan burn bloody bitch

Fire and blood - my fire  
Fire and blood - your death  
Fire and blood  
Your blood is my sacrifice

The Spanish boot broke your leg  
Glowing steel burnt your flesh  
The whiplash on your back  
Makes you scream  
Tell me the truth or die

Your whispering I understand  
You slept with Satan to the end  
Riding with demons through the night  
Die by the cross you will burn

Fire and blood - my fire  
Fire and blood - your death  
Fire and blood  
Your blood is my sacrifice

You stand on the pyre  
The fire kisses your flesh  
Screaming in pain  
And you look into my eyes  
And that what you see, makes me smile  
Cause you know that I'm Satan in disguise
