He saw the rainbow. It will show him the way, 'cause he
must find

The way to valhalla. Odin trapped the wizard to oppres
him kill

The serpent and the black wolfe or the wizard will die

Created by fire and ice. Burned for a thousand times. A
lonely

Black heart inside, only made to rule the world. Son of
darkness

The world stands behind him, give him power with his
horse. He

Rides to the darksea. He finds the serpent, cut it into
pieces and

The dark wolfe stands on the hill to fight with him.
