"The Fire Of Volcanus"

Visit "[The Fire Of Volcanus](#)" on MotoLyrics.com

To the web of sorcery we bound ourselves
In this ancient dome at midnight hour
To the voracious flames we sacrificed wisdom
Out of the chaos smoke solidified infernal power

The formula of the universe
A cult devoted to Satan

Redemption - of the concealed science
Resurrection - of the dormant spectres of Hell
Realisation - of the ever-lurking doom
The shorn lamb will be slaughtered under a bleeding
Moon

Visitation - to the servants of god
Celebration - for the ones strong in dark faith
Conflagration - set the ancient spirits free
In the fire of Volcanus breeds the fountain of sorcery
