What goes on behind closed doors  
What happens when lights are out  
Do you feel the powers that be  
Can you feel the hands' round your neck

Let's dance around the fire  
And revel the beast  
Switch off your mind for a second  
And receive

Let me in on your secret  
I am dying to find out

Candles burning in the night  
The masters gather in the dark  
Do you feel drawn towards the moon  
Can you feel your hands are tied

All chant around the fire  
Hands to the sky  
Switch off your mind for a second  
And receive

Let me in on your secret  
I am dying to find out  
I can keep a little secret  
Cross my heart and hope to die

Let me inside  
Take me inside  
Let me inside  
Inside of you
