Everyday I work my fingers to the bone  
I'm a beast of burden so give me some heavy load  
Obsessive and compulsive head banging against a wall  
I won't give up without a fight before I fall

Punch in the face  
Take the blow  
Stand up, strike back  
Here it comes

Skull crusher - Can you feel the pain  
Skull crusher - Here it comes again

Grave diggers will pull the triggers and eat your peace  
of mind  
Just keep walking as they are stalking and leave them  
all behind  
The smell of blood brings back so many memories  
No time for flash backs now, so raise your fist and  
scream

Punch in the face  
Take the blow  
Stand up, strike back  
Here it comes

Skull crusher - Can you feel the pain  
Skull crusher - Here it comes again

Skull crusher - Can you feel the pain  
Skull crusher - Here it comes again  
Skull crusher - Here comes the pain  
Skull crusher - Here comes the pain  
Skull crusher
