

## **Wolf Mail "Angels Are"**

Visit "[Angels Are](#)" on MotoLyrics.com

Searching for love and appreciation a sense for your  
life  
You look around but you can't find what you're looking  
for  
Coming up coming down can't be yourself  
You need that love better step above and call the  
Angels down  
Call them call the Angels down

Babe what is that sound - Better move over now -  
Angels are coming down

Feeling high feeling low you want to be home  
Can't get enough too much stuff  
Going out of your mind - Please free me nobody  
needs me  
You are sinking down low - You need that love better  
step above  
And call the Angels down

Call them call the Angels down

Babe what is that sound - Better move over now -  
Angels are coming down
