"The Visitor"

You're born again,
The street lights are flashing.
But you can't see them
Cause your eyes are adjusting.
And in the full moon
Perfect life ahead,
You need to choose them
You owe me!

This one visitor, I have to see alive
One miracle, we have to...
One visitor, I have to see alive
One miracle!

This one visitor, I have to
I have to, have to
This one visitor, I have to
I have to, have to
This one visitor, I have to
I have to, have to
The street lights are flashing.
Come see...
The lights are adjusting.
And in the full moon
(It's one visitor)
Perfect life ahead,
(It's one visitor)
You need to choose them
(It's one visitor)
You owe me!
