What's so good about goodbye?  
All it does is make-a you cry  
Well, if leaving causes grieving  
And depart can break you heart  
Tell me what's so good about it  
I could have done without it  
What's so good about goodbye?  
Since you said goodbye to me  
All I've known is misery  
Well, if everything goes wrong  
And lovers say so long  
Tell me what's so good about it  
I could have done without it  
What's so good about goodbye?  
How can goodbye be good to a lover who really cares?  
And another thing I would like to clarify  
Is how can farewell be fair?  
Won't you please tell me why  
You could say this is goodbye  
Girl, when it makes me so sad then it's got to be bad  
Tell me what's so good about it  
I could have done without it  
What's so good about goodbye?  
(Musical interlude)  
Won't somebody tell me, now  
How can goodbye be good to a lover who really cares?  
And another thing I would like to clarify  
Is how can farewell be fair?  
Won't you please tell me why  
You would have the nerve to say this is goodbye  
Girl, when it makes me so sad then it's got to be bad  
Tell me what's so good about it  
I could have done without it  
What's so good about goodbye?  
Baby,  
What's so good about goodbye?
