Another frame of mind, I feel so aware  
I never thought to see you there  
There's a tear somewhere, and I don't know why  
I'm not so proud to live again  
Forever and ever, ever and ever

Chorus:  
Call my name  
Where ever you are  
Sooner or later  
Call my name  
You can find me  
Forever and ever again

Call my name  
You can find me  
Forever and ever again

I have never had, a cause to blame

A reason to cry, and I've learned from you  
To reach your heart  
I never thought of my peace of mind

Chorus

I can hear your voice somewhere  
But my eyes can't see you there  
In the silence of my soul  
You are there hut you don't know  
Forever and ever

Chorus x2

You can find me  
I will rise  
Just call my name
