Delight - watching the sea calm  
Under the rain fall - surprise  
Surprise - people have done away  
Closing their deck-chairs  
I come to stay  
Defend - my simple existence  
My silent dialogue  
To modem noise  
Shiver - cover my shiness  
With all the battles  
Won over me

Bridge:  
Under stormy weather  
Listen to my heaven whisper to my soul  
Penetrating water  
Feeling like a lover wait this symphony

Chorus:  
Winter silence speaks to me

I don't want to live tomorrow  
Winter silence cries to me  
I don't like to say I'm sorry  
Winter silence faces me  
All my life I've spent running  
Winter silence I won't go  
I just wanna listen to my heart you know

Delight - watching the sea calm  
Under the rain fall  
Winter silence  
Surprise - people have gone away  
Closing their deck-chairs  
I come to stay

Bridge  
Chorus x2
