Your eyes are my shelter
Your lips are my wine
I wish you were mine
All the time
I want you to know that
You'll always be there as I make my way
Through the gardens of despair

No matter how I have to stay
Without your love I dig my grave
And lay there down to die
As tear drops fill the sky
And shower down upon you warm
Until you seek shelter from the storm
And meet me in my arms again

Anyway the wind blows
Anyway your heart goes
In my heart's burning infernal
Our love is eternal

Your breath is my blanket
It takes me to where
I'm running my fingers
Through your long golden hair
And every time I see you cry
A little part of me will die
So I leave love alone
And through desolation roam
Nevering finding my way down
To get my feet back on the ground
You know I've always been a restless soul
Without a home

Anyway the wind blows
Anyway your heart goes
In my heart's burning infernal
Our love is eternal

Oh I know I've been a mess
But this I must confess
I've never loved a woman quite like you

I'm scared of even trying
Cause the scares cannot be lying
About our love

Anyway the wind blows
Anyway your heart goes
In my heart's burning infernal
Our love is eternal
Our love is eternal
