Be my umbrella keeping me out of the rain  
You kiss so softly easing all my pain  
'til the rain goes away alright

Be my sunshine  
Beaming me bright through the clouds  
Cold bitter rain drops bring to me the ground  
That won't be found when your around

My love you get me high, high...  
You get me high high...  
You get me high.....

Where's my raincoat  
The weather's nowhere to be found  
The sun ain't shining i'm feeling down oh  
Where is my love you were my dove  
Now peace has flown

You get me high high  
You get me high.....

Don't you ever think about my universe  
Don't you know it rest inside your hand  
Don't you ever wonder what i'm going through  
I do believe I need a second chance

You get me high high  
You get me high.....

Be my umbrella keeping me out of the rain  
You kiss so softly easing all my pain  
'til the rain goes away
