

## Mirah "Jerusalem"

Visit "[Jerusalem](#)" on [MotoLyrics.com](#)

We celebrate the wars we won  
The blood of history's ancient sons  
We followed judah maccabee  
We fought against iniquity  
We saved ourselves with help from one  
Who loves his children, everyone  
Everyone, everyone  
Everyone, everyone

So now jerusalem, you know that it's not right  
After all you've been through, you should know better  
than  
To become the wicked ones almighty god once saved  
you from

The lessons we should learn from all  
The fighting in the days of old  
When providence was still divine  
The sanctuary purified  
Let lightning circle all you hold  
And don't uproot the olive grove

So now jerusalem, you know that it's not right  
After all you've been through, you should know better  
than  
To become the wicked ones almighty god once saved  
you from

So now jerusalem, you know that it's not right  
After all you've been through, you should know better  
than  
To become the wicked ones almighty god once saved  
you from
