Here we go, here we go,
feel it coming in coming on,
feel it coming in coming on,
feel it coming in coming on, yer yer,
feel it coming in coming on, c mon,
feel it coming in coming on, something,
feel it coming in coming on,
feel it coming in coming on, why dont you give it some,
feel it coming in coming on, what, what,
feel it coming in coming on, why dont you give it some,
feel it coming in coming on,
feel it coming in coming on, why dont you give it some,
feel it coming in coming on.

Here we go, what, what,
There's no question of a doubt, i've checked all the
ladies out,
your the finest thing that i've seen, sexy lady be my
queen,
Had this dream thinking of me, you,
all the things that we could a do,
mind for ya body and soul,
gonna make you lose control, here we go.

Sometimes get this feeling, feel so good, feel so fine,
cmon yer,
sexy lady dance
(like the way that you shake it move it)
some times get this feeling, good, feel so good.

There's no question of a doubt, i've checked all the
ladies out,
your the finest thing that i've seen, sexy lady be my
queen,
Had this dream thinking of me, you,
all the things that we could a do,
mind for ya body and soul,
gonna make you lose control, here we go.

Sometimes get this feeling, feel so good, feel so fine,
cmon yer,
sexy lady dance

(like the way that you shake it move it)
some times get this feeling, good, feel so good.

I hope from the chain of heaven I know he chases her,
I know that he has found another friend, C mon what
what,
maybe he's found the answer to all the people's love.
Maybe one day i'll see him chasing her.
There's no question of a doubt, i've checked all the
ladies out,
your the finest thing that i've seen, sexy lady be my
queen.
Had this dream thinking of me, you, all the things that
we could a do,
mind for ya body and soul, gotta make you lose
control, here we go.
Sometimes it it it aint bad, feel so good, feel so bad,
sometimes it it it aint bad, good, feel so good.

Here we go, feel it coming in coming on, feel it coming
in coming on,
why dont you give it some, feel it coming in coming on,
yer yer, feel it coming in coming on, c mon, what.
