Surrounded by shit, drowning in shit
Spewing from walking talking rectums
"A people who trade liberty
For security... deserve neither"
In the country of the blind
The one-eyed man is king

In this country there exists a tendency
To trust in the powers that fucking be
In the country of the blind
The one-eyed man is king
You stupid cattle will believe anything
In the country of the blind
The one-eyed man is king
You stupid cattle will die for anything
In the country of the fucking blind
The one-eyed man is fucking king

(The response was completely typical and predictable...
The United States has unilaterally ignored the interests
of the Muslim world
And it's foreign policy has been one provocation over
another.
Since the first Bush presidency, the U.S. has looked for
a way
To monopolize oil reserves and natural resources in
central Asia.
A 'war on terror' is the perfect propaganda campaign
To gain political control of that region.
Colin Powell has talked repeatedly of 'erasing' states
that 'sponsor terrorism',
And setting up areas of U.S. hegemony.
Eventually you will see this 'war' move into Tajikstan,
Turkmenistan,
Pakistan, Iraq, etc as new so-called terrorists are
found)

Fucking
In this country there exists a tendency
To trust in the fucking powers, the powers that fucking
be

It's the nature of the lemming to fall for anything
In this country of the blind, the one-eyed man is
fucking king
