Take me to your playhouse, baby  
Please, please, for a little while  
I fall to fever when I'm by your side  
You send me chills cold sweat desire  
I'd really like to touch you  
Free emotions while we close our eyes  
This dirty habit is so hard to fight  
We dance so close, our bodies tight  
(chorus)  
I'm so trapped in the dark  
With a little lack of love  
You are what I long for  
You set me on fire  
I burn by your side  
Don't you know I  
I long for a motion emotion  
I beg for a single touch  
You take me higher  
(chorus)  
Pulling close  
One more time  
The move is so slow  
I don't need no devotion  
I don't need your virgin vows  
I just want your  
(chorus)
