I will swear to never tease you  
Oh no, when you play with me  
Make me shiver, like a flower  
Oh lord, do you feel for me  
(chorus)  
All day all night, love like candy  
All day all night, this boy wants more  
All day all night, love like candy  
All day all night, one bite more  
I'm addicted to you, baby  
Oh no, I hunger for you  
Do you need a piece of my love  
I need your touch'n'funky, wet  
(chorus)  
Love like a needle, that burns through my vein  
Going up to my brain, and back down again  
Say hey sugar honey, say what's your kick  
I know mine is you and that's no lip  
(chorus)
