YOU STILL GIVE ME BUTTERFLIES [Worldwide Groove Corporation Version]

Words and Music by Ellen Tift

Â© Rock of Life Music

You still give me butterflies my love. [4x]

Looking in your eyes
is heaven to me
and how I fantasize about
what your kiss does to me
My love, your charm is
so disarming and ooh

You still give me butterflies
my love. [4x]

Baby when you hold me close

it melts me inside
And darling your words so sweet
bring a tear to my eye
Everyday we grow a little older
and ooh...

You still give me butterflies
my love.

You still give me butterflies
each time you hold me near
and whisper in my ear
You still give me butterflies

And when you touch my cheek
you make my knees get weak
You still give me butterflies
my love.
