Angel of sphere, crushed by inside
Mercury spouting the grinding hemisphere
Circular columns astral images, fillings
Amazing construction of hybrid badges

Monumental theater collapse, evaporating slowly
Illusion poor decadence! Softening of the virus
Enlargement of the crack, losing their hope
Blind, blind on deceit blind, blind on deceit

Automatic genetics in total revolution
Incoming murderers of powerful thoughts
All in chaos, disfigured afraid volumes
Souls in pain, inconceivable suffering

Freezing of the forms in indescribable disaster
Break horizons, fantasy of another world
Gigantic knives of titanium
Making to sprout the blood of the ground

Defining the edge of the negative poles
Freezing the turbulent wave of death
Electric erosion of the buried towers
Stone and metal... unity

Phantasmagoric deficiency of ectoplasm
Inflated by an hydraulic machine
Melting with the elements
Inverted raising fulminated
