Reconstruction in the amorphous line of time
Powerful emanation of energy
I see the constellations changing colour
Mathematical combinations of triangular visions

Perfect
To Syntonizing the elements to create the tunnel
Absorbing all planet energy, I'm the vortex, the
epicentre...

Graphical emanation of numbers in my evolved system

Equal position? The equal unequal...
Erroneous calculation,
The imperfection of the human mind
Primitive facts, spectral sounds
Desperately in the surface I scream

Reconstruction in the amorphous line of time
Powerful emanation of energy

My blindness...

Perceived by the ones
Distant to understand, distant from stand
Insects are trying to introduce in the tunnel
Non-physical forms, the nucleus have to grow

Broken

Micro magnetic spectral perception

Manifest

Reconstruction in the amorphous line of time
Powerful emanation of energy
I see the constellations changing colour
Mathematical combinations of triangular visions

Combination

Distant to understand, distant from stand

Distant to understand

Tunnel of ions

Equal Position? The equal unequal...

Erroneous calculation,

The imperfection of the human mind

Primitive facts, spectral sounds
