State of the matter before  
(The) primary explosion

In the cosmology of the big-bang, this is  
The extremely compressed neutrons  
Of the primary substance  
In this dimension

The space while  
I am not inside  
It will be paralyzed

Marked by a common rule I travel  
Toward the center, toward the infinity  
In a reference point near Ylem

I am the point zero  
I am the center of the cosmos  
I am in all directions

I am Ylem  
I am Ylem

I am the point zero  
I am the center of the cosmos  
I am in all directions

I am Ylem  
I am Ylem

External Inside The Outside  
Beyond the last mirror of the infinite

Infinite

Covered by plasma  
Regroup new explosion  
Concentrate all black matter  
From inside
